***"To Promote, Develop, and Service  
Business, Industry and Community"***

We here at the Palmdale Chamber of Commerce stand behind our mission - "To promote, develop and service Business, Industry and Community. That is why we developed the "Walk with the Mayor" program.

Through this program we aim to connect with the local business community to provide an arm of support for business operations. As we walk the areas of our city visiting with business owners and staff, we are able to listen to concerns and assess needs. From this we hope to create dialog between the Palmdale Chamber and local businesses. Connecting through this open forum allows us to provide informational resources to aid in the growth and viability of the businesses that we visit.

The City of Palmdale also shares in our concern and has joined with us in this effort to support local industry.

Of course, we can't have a "Walk with the Mayor" without the City Mayor. Mayor James C. Ledford, Jr. not only supports this effort, he is onsite for every event, connecting with the community he has committed to leading.

James C. Ledford, Jr.  
Mayor, City of Palmdale

The "Walk with the Mayor" Committee is comprised of concerned citizens like yourself who volunteer their time, effort, and resources to ensuring the success of this program. Collectively, we believe that this show of encouragement and support will go a long way to build a business community that represents our proud city.

Also, volunteers for the Chamber of Commerce are business owners and professionals who understand the challenges of maintaining and growing a thriving business, especially in a fluctuating economy.

Finally, as local business owners and Chamber volunteers, we are committed to supporting community interests. Together we can make great things happen!

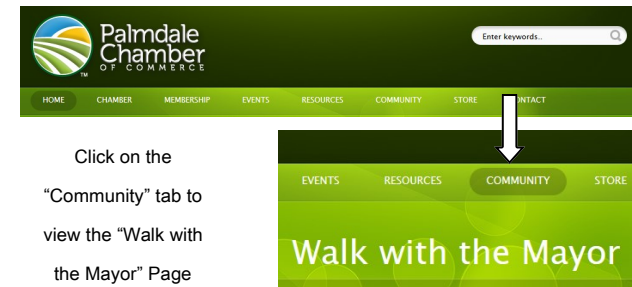

Respectfully,

The Palmdale Chamber of Commerce
